# Who We Are

## BETSILL BROTHERS A Trusted Name

It began in the 1970's with a father—Doyle Betsill, Sr.—a builder and developer who instilled in his four sons a strong work ethic and passed on a strong foundation in the construction industry. In 1993, the four sons—Doyle Jr., Dwayne, Steve and Randy Betsill—founded Betsill Brothers. Today, Betsill Brothers is a multi-million dollar enterprise specializing in development and construction projects throughout the Western Hemisphere. The ultimate goal of our exceptional team of skilled professionals is to provide every client with excellence and dedication that we offer all honored members of our extended family—or as we say in Hawaii, our ohana.
